

SO WHAT ELSE IS NEW

Tell me what's the deal,
Say what is and isn't real,
Say what's fake and what's true,
So what else is new?
People tell you lies,
They look straight into your eyes,
But their sweet baby blue
You should see right through.
Pardon me for not forgetting what I learned,
Got my fingers burned before.
Politicians, thieves,
Shysters no one believes,
Are not a million miles from me and you,
As we fight with the rest
For our little old self-interest,
That's what we do,
OK, what else is new?

Tell me, would you say
That with trusting you I may
Have a problem or two,
You're damn right I do!
Only that I found
Every single time around
Someone gets screwed,
So what else is new?
Why would you imagine I'd be so naïve

Simply to believe in you?
Don't apologise,
Spare me your alibis,
One simple hint will help to see you through –
Rule number one -
Don't take any crap from anyone,
That's what you do,
OK, what else is new|?
